

DES MOINES WATER WORKS
invites applications for the position of:

Installer - Leak Survey

SALARY: \$29.89 - \$35.60 Hourly
\$62,171.20 - \$74,048.00 Annually

**OPENING
DATE:** 12/12/22

**CLOSING
DATE:** 12/31/22 05:00 PM

JOB SUMMARY:

Under the direction of the Water Distribution Supervisor prepares excavations, installs, and repairs water mains and components, and surveys the water distribution system using electronic leak detection equipment. Performs emergency repair work as required. Is on call on a rotational basis a week at a time for emergency repair work as required.

EXAMPLES OF ESSENTIAL JOB FUNCTIONS:

- Repairs broken mains and service connections under routine or emergency conditions and restores area by using various hand tools.
- Performs valve and hydrant maintenance and inspection, operating valves using proper procedures and torque tables, cleans and repairs valve boxes, and determines source of malfunction.
- Installs and connects mains, services, fire hydrants and valves according to construction drawings using hand tools, equipment and materials as required.
- Operates electronic sounding equipment to detect and record leak sounds that could be related to unaccountable water loss on Des Moines Water Works' and other distribution systems as a billed service.
- Makes excavations and removes pavement with hydraulic, air and hand tools in order to place pipe, fittings, fire hydrants, valves, and other related components. Completes excavation by backfilling and tamping, pouring, and spreading concrete, dirt, and/or sand.
- Obtains and interprets distribution system information from field computers to perform work activities.
- Sets up and monitors barricades and other related traffic devices at the job site to ensure safety in the working environment for the general public.
- Assists in maintaining a safe work site.
- Oversees field operations of the crew in the absence of the Crew Leader.
- Operates crew vans, dump trucks, and other equipment as required.
- Performs flow tests and flow calculations.
- Prepares reports and records.
- Performs other duties of a similar nature.

QUALIFICATIONS:

MINIMUM QUALIFICATIONS:

Education:

High school diploma or GED equivalent.

Experience:

At least two years' experience in installing, maintaining, or repairing water distribution systems.
